Net income on a fully exchanged basis was \$61.4 million, or \$0.46 per share (diluted), for the first quarter of 2010, excluding previously announced pre-tax special charges totaling \$112.0 million^(c), compared to a net loss of \$29.7 million, or \$(0.26) per share (diluted), excluding a pre-tax special charge of \$62.6 million^(d), for the first quarter of 2009.

Lazard believes that results assuming full exchange of outstanding exchangeable interests and excluding special charges provide the most meaningful basis for comparison among present, historical and future periods.

Operating Revenue and Operating Income

Operating revenue was a first-quarter record of \$456.9 million for the first quarter of 2010, a 67% increase over \$272.9 million for the first quarter of 2009. Operating income was \$77.5 million for the 2010 first quarter, compared to an operating loss of \$28.2 million for the first quarter of 2009, excluding special charges in both periods.

The Company's quarterly revenue and profits can fluctuate materially depending on the number, size and timing of completed transactions on which it advised, as well as seasonality and other factors. Accordingly, the revenue and profits in any particular quarter may not be indicative of future results. As such, Lazard management believes that annual results are the most meaningful.

Comments

“Our first quarter results, with 67% operating revenue growth over the same 2009 period, show continued strength and momentum in both our Financial Advisory and Asset Management businesses as we enter the gradual upturn of the next cycle,” said Kenneth M. Jacobs, Chairman and Chief Executive Officer of Lazard. “Our M&A advisory business has gained significant global market share over the past year, and our Restructuring and Sovereign Debt advisory businesses continue to lead the industry in the US and Europe. Our Asset Management business achieved its best first quarter ever for operating revenue and continues to report positive net inflows.”

"We have maintained our focus on lowering compensation and non-compensation expenses," said Michael J. Castellano, Chief Financial Officer of Lazard. "Compensation expense increased 35% compared to the 67% growth in revenue, consistent with our stated goal of growing revenues at a faster rate than our compensation expense on an annual basis. We reduced our compensation and non-compensation expense ratios in the quarter to 60.3%, excluding the special charge, and 18.3%, respectively."

Revenue

Financial Advisory

Financial Advisory operating revenue increased 65% to a first-quarter record of \$269.1 million, compared to \$163.5 million for the first quarter of 2009.

Asset Management

Asset Management operating revenue was a first-quarter record of \$183.7 million, compared to \$102.9 million for the 2009 first quarter, an increase of 78%.

Assets Under Management at March 31, 2010, were \$135.0 billion, representing a 66% increase over Assets Under Management of \$81.1 billion at March 31, 2009, and a 4% increase over Assets Under Management of \$129.5 billion at December 31, 2009. The increase for the 2010 first quarter includes net inflows of \$3.0 billion. At March 31, 2010, approximately 83% of Lazard's AUM was invested in equities and 13% in fixed income.

Average Assets Under Management were \$132.3 billion for the first quarter of 2010, representing a 54% increase over average Assets Under Management of \$86.1 billion for the first quarter of 2009, and a 6% increase compared to \$124.9 billion for the fourth quarter of 2009.

Management fees increased 73% to \$161.8 million for the first quarter of 2010, the second highest quarter of management fees for the firm, compared to \$93.5 million for the 2009 first quarter.

Incentive fees were \$13.8 million for the first quarter of 2010, compared to \$5.4 million for the comparable period in 2009. Incentive fees are recorded on the measurement date, which for most of our alternative strategies that are subject to incentive fees occurs in the fourth quarter.

Other Asset Management operating revenue was \$8.1 million for the first quarter of 2010, compared to \$4.0 million for the first quarter of 2009. The increase in the 2010 period was due to investment losses in the 2009 respective period, which did not occur in 2010, and to increased commission income.

Our Asset Management business provides investment management and advisory services to governments, institutions, financial intermediaries, private clients and investment vehicles around the world. Our goal in our Asset Management business is to produce superior risk-adjusted investment returns and provide investment solutions customized for our clients. Asset Management includes the management of equity and fixed income securities as well as alternative investment and private equity funds.

Expenses

Compensation and Benefits

The accrual for compensation and benefits expense, excluding the special charge described below, includes base salaries and benefits, amortization of deferred incentive awards and estimated year-end discretionary cash incentive compensation. The accrual was \$275.5 million for the first quarter of 2010, compared to \$203.5 million for the first quarter of 2009, and represented a 35% increase, compared to the 67% increase in operating revenue. The ratio of compensation and benefits expense to operating revenue, excluding the special charge, was 60.3% for the first quarter of 2010, compared to 74.6% for the first quarter of 2009. The reduction in the compensation ratio is primarily due to execution on our previously announced goal to grow annual compensation expense at a slower rate than operating revenues, and to achieve over the cycle compensation levels on average consistent with the targets established at the time we went public in 2005.

During the first quarter of 2010, as previously announced, we implemented and amended a previously approved retirement policy, which accelerated the amortization of certain deferred stock awards and resulted in a non-cash pre-tax special charge of \$24.9 million.

Non-Compensation

The ratio of non-compensation expense to operating revenue, excluding amortization of intangibles related to acquisitions, was 18.3% in the first quarter of 2010, compared to 26.7% in the respective 2009 period. The lower ratio of non-compensation expense to operating revenue was due primarily to the operating leverage from the 67% increase in operating revenue compared to a 14.7% increase in such adjusted non-compensation expense.

Total non-compensation expense increased 17% to \$85.2 million for the first quarter of 2010, compared to \$73.1 million for the first quarter of 2009, including amortization of intangibles related to acquisitions of \$1.8 million and \$0.3 million in the respective periods. Other factors contributing to the quarter-over-quarter increase include higher business development expenses for travel and market related data and fund administration expenses related to the increased level of business activity and assets under management.

The percentage of non-compensation expenses to operating revenue can vary from quarter to quarter due to quarterly fluctuation in revenues, among other things. Accordingly, the results in a particular quarter may not be indicative of future results. Lazard management believes that annual results are the most meaningful basis for comparison.

Restructuring Expense

As previously announced, we selectively planned to reduce staffing during the first quarter of 2010 to further optimize our mix of personnel, create greater efficiency, productivity and shareholder value, while simultaneously maintaining a program to selectively hire senior bankers and Asset Management professionals. As a result, we expected to record a pre-tax charge of approximately \$90 million in the first quarter of 2010. Of that \$90 million charge, we have to date taken a pre-tax charge of \$87.1 million from reductions made during the first quarter. The charge included (i) severance and benefit payments, (ii) a non-cash charge of \$47 million relating to restricted stock units previously granted to individuals who were terminated, and (iii) certain other expenses related to the restructuring initiative.

Provision for Income Taxes

The provision for income taxes, on a fully exchanged basis, was \$13.7 million for the first quarter of 2010, compared to \$2.5 million for the first quarter of 2009, excluding the effects of special charges in each period. The effective tax rate on the same basis for the first quarter of 2010 was 18.2%, exclusive of noncontrolling interests. The effective tax rate for the first quarter of 2009 was not meaningful due to the pre-tax loss.

Noncontrolling interests

Net income attributable to noncontrolling interests, on a fully exchanged basis, amounted to \$2.4 million for the first quarter of 2010, compared to a net loss of \$1.1 million for the first quarter of 2009. Noncontrolling interests, on a fully exchanged basis, principally represents interests that the Company is deemed to control but not own in (i) various LAM-related general partnerships and (ii) in Edgewater management vehicles acquired during the third quarter of 2009.

Liquidity, Capital Resources and Other Items

Lazard continues to maintain a strong liquidity position with over \$900 million at March 31, 2010, in cash, US Government and agency securities, and marketable equity securities.

At March 31, 2010, total stockholders' equity related to Lazard's interests was \$398 million, which includes negative adjustments to total Accumulated Other Comprehensive Loss during the first quarter of 2010, due primarily to (i) net negative foreign currency translation adjustments of \$21.4 million, and (ii) net unrealized gains of \$4.0 million related to securities designated as available for sale.

Non-GAAP Information

Lazard discloses certain non-GAAP financial information, which management believes provides the most meaningful basis for comparison among present, historical and future periods. The following are non-GAAP measures used in the accompanying financial information:

- Net income (loss) attributable to Lazard Ltd, assuming full exchange of exchangeable interests (or fully exchanged basis) and excluding special items
- Net income (loss) assuming full exchange of exchangeable interests (or fully exchanged basis) and excluding special items
- Operating revenue
- Operating income, excluding special items
- Noncontrolling interests assuming full exchange of exchangeable interests

- Weighted average shares outstanding, assuming full exchange of exchangeable interests and excluding special items
- Net income (loss) per share, assuming full exchange of exchangeable interests and excluding special items

Our non-GAAP measures are not meant to be considered in isolation or as a substitute for comparable GAAP measures, and should be read only in conjunction with our consolidated financial statements prepared in accordance with GAAP. For a detailed explanation of the adjustments made to comparable GAAP measures, see item (d) in notes to unaudited condensed consolidated statements of operations and reconciliation of US GAAP results to full exchange excluding special charges. Lazard believes that results assuming full exchange of outstanding exchangeable interests and excluding special charges provides the most meaningful basis for comparison among present, historical and future periods.
