Asset Management

In the text portion of this press release, we present our Asset Management results as 1) Management fees and other revenue, and 2) Incentive fees.

For the second quarter of 2021, Asset Management operating revenue was a record \$343 million, 40% higher than the second quarter of 2020. For the first half of 2021, Asset Management operating revenue was a record \$671 million, 31% higher than the first half of 2020.

For the second quarter of 2021, management fees and other revenue was a record \$309 million, 26% higher than the second quarter of 2020, and 5% higher than the first quarter of 2021. For the first half of 2021, management fees and other revenue was \$604 million, 18% higher than the first half of 2020.

Average assets under management (AUM) for the second quarter of 2021 was a record \$276 billion, 32% higher than the second quarter of 2020, and 6% higher than the first quarter of 2021. Average AUM for the first half of 2021 was \$269 billion, 25% higher than the first half of 2020.

AUM as of June 30, 2021, was \$277 billion, a quarter-end record, up 29% from June 30, 2020, and up 5% from March 31, 2021. For the second quarter of 2021, incentive fees were \$34 million, compared to \$1 million for the second quarter of 2020. For the first half of 2021, incentive fees were \$67 million, compared to \$2 million for the first half of 2020.

OPERATING EXPENSES

Compensation and Benefits

In managing compensation and benefits expense, we focus on annual awarded compensation (cash compensation and benefits plus deferred incentive compensation with respect to the applicable year, net of estimated future forfeitures and excluding charges), a non-GAAP measure. We believe annual awarded compensation is an appropriate measure to assess actual annual compensation cost when also presented with the GAAP measure of compensation cost, which includes applicable-year cash compensation and the amortization of deferred incentive compensation principally attributable to previous years' deferred compensation. We believe that by managing our business using awarded compensation with a consistent deferral policy, we can better manage our compensation costs, increase our flexibility in the future and build shareholder value over time.

For the second quarter of 2021, we accrued compensation and benefits expense¹ at an adjusted compensation¹ ratio of 59.5%, compared to the second-quarter 2020 ratio of 60.0%. This resulted in \$489 million of adjusted compensation and benefits expense, compared to \$326 million for the second quarter of 2020.

For the first half of 2021, adjusted compensation and benefits expense was \$874 million, compared to \$663 million for the first half of 2020.

We manage our compensation and benefits expense based on awarded compensation with a consistent deferral policy. We take a disciplined approach to compensation, and our goal is to maintain a compensation-to-operating revenue ratio over the cycle in the mid- to high-50s percentage range on both an awarded and adjusted basis, with consistent deferral policies.

Non-Compensation Expense

Adjusted non-compensation expense¹ for the second quarter of 2021 was \$119 million, 19% higher than the second quarter of 2020. The increase primarily reflects higher marketing and business development expenses, including travel and technology investments. The ratio of adjusted non-compensation expense to operating revenue for the second quarter of 2021 was 14.5%, compared to 18.3% for the second quarter of 2020.

Adjusted non-compensation expense¹ for the first half of 2021 was \$221 million, 4% higher than the first half of 2020. The ratio of adjusted non-compensation expense to operating revenue for the first half of 2021 was 15.1%, compared to 19.2% for the first half of 2020.

Our goal remains to achieve an adjusted non-compensation expense-to-operating revenue ratio over the cycle of 16% to 20%.

TAXES

The provision for taxes, on an adjusted basis¹, was \$49 million for the second quarter and \$90 million for the first half of 2021. The effective tax rate on the same basis was 25.2% for the second quarter and 26.7% for the first half of 2021, compared to 23.9% and 26.3% for the respective 2020 periods.

CAPITAL MANAGEMENT AND BALANCE SHEET

Our primary capital management goals include managing debt and returning capital to shareholders through dividends and share repurchases.

In the second quarter of 2021, Lazard returned \$161 million to shareholders, which included: \$50 million in dividends; \$111 million in share repurchases of our Class A common stock; and \$1 million in satisfaction of employee tax obligations in lieu of share issuances upon vesting of equity grants.

In the first half of 2021, Lazard returned \$398 million to shareholders, which included: \$99 million in dividends; \$234 million in share repurchases of our Class A common stock; and \$66 million in satisfaction of employee tax obligations in lieu of share issuances upon vesting of equity grants.

During the first half of 2021, we repurchased 5.3 million shares at an average price of \$43.86 per share, which included 2.4 million shares repurchased in the second quarter at an average price of \$45.72 per share. As of June 30, 2021, our remaining share repurchase authorization was \$366 million.

On July 29, 2021, Lazard declared a quarterly dividend of \$0.47 per share on its outstanding common stock. The dividend is payable on August 20, 2021, to stockholders of record on August 9, 2021.

- ¹ A non-U.S. GAAP measure. See attached financial schedules and related notes for a detailed explanation of adjustments to corresponding U.S. GAAP results. We believe that presenting our results on an adjusted basis in addition to the U.S. GAAP results is a meaningful and useful basis to compare our operating results across periods.
- ² Second-quarter and first-half 2021 adjusted results¹ exclude losses of \$23.6 million associated with restructuring and closing of certain offices; pre-tax charges of \$1.2 million and \$2.7 million, respectively, relating to office space reorganization; and \$5.7 million and \$15.3 million, respectively, relating to expenses associated with restructuring and closing of certain offices.
